ATTACHMENT A

1. Three sensitivity categories of controlled access programs
   are defined as:

   A. HANDLE VIA CONTROL SYSTEM ONLY: Sensitive programs
      formally controlled within an established (B-like)
      channel; formal access list maintained; signed secrecy
      agreements required.

   B. SIGNATURE ACCESS: Sensitive high visibility programs
      formally controlled by the project office on a strict
      need-to-know basis; formal access list maintained and
      signed secrecy agreements required.

   C. LIMITED ACCESS: Sensitive programs executed with
      generically allocated resources and controlled on a
      need-to-know basis by maintaining a list of those witting
      of the project; signed secrecy agreements are at the
      option of the cognizant office.

2. LEVEL 3 - Fully witting of program details and target.

   LEVEL 2 - Witting of program details but not operational
             location or target.

   LEVEL 1 - Witting of generic program objectives (a description
             suitable for contract review board discussions).
